"We recently moved to the Conway area and I had to relocate my 2-year-old. We were going through a lot of changes and it was especially hard on him because he loved his daycare. Drop-offs were so stressful for both of us and I started to question if making him go was the right thing to do.

I was just going to pull him from daycare altogether versus continuing to fight with him, but instead I reached out to the director of the program and expressed my concerns. She was super understanding and supportive.

Sonshine went above and beyond to make sure we both felt welcome and reassured me through all the tough drop-offs even sending me pics of him throughout the day until (Just like they said!) he adjusted and now he loves it there even more than our old daycare!! I never have to worry about anything. I have a newborn daughter and can't wait to enroll her!! I'm a life-time customer."

"Two years ago I registered my little granddaughter, Jasara, into the MOD program at Sonshine Academy. She was excessively shy. She needed to develop and make friends. That was the best decision I ever made! She has blossomed into a great three year old. All of the staff are exceptional! They teach, cherish and love every child. She counts each day until it's time to go back! Thanks to each and everyone of you for giving her so much!"
